Nicola Marzari

Nicola Marzari holds the chair of Theory and Simulation of Materials at EPFL, where he is also the director of the National Centre on Computational Design and Discovery of Novel Materials. He heads the Laboratory for Materials Simulations at the Paul Scherrer Institut, and holds an Excellence Chair at the University of Bremen.

Previous tenured appointments include the Toyota Chair for Materials Processing at MIT, and the Statutory Chair of Materials Modelling at the University of Oxford. He has a PhD in Physics from the University of Cambridge, and a Laurea in Physics from the University of Trieste. H index 98
