

Mini konferenca o uporabi CoQ10 v prehrani, medicini in veterini

Friday 16. oktober 2009

14:00-14:10		Opening session
14:10-15:00	<u>G.P Littarru</u>	Coenzyme CoQ10 effects in health and disease
15:00-15:30		Coffee break
15:30-16:00	<u>Janko Zmitek</u>	Improving bioavailability of coenzyme CoQ10
16:00-16:20	<u>Barbara Verk</u>	Antioxidant status and biomarkers of oxidative stress are altered in dogs with different cardiovascular diseases
16:20-16:40	<u>Katerina Tomsic</u>	24-hour follow-up of plasma coenzyme CoQ ₁₀ and total antioxidant capacity after a single oral dose of water-soluble coenzyme Q ₁₀ in healthy beagle dogs
16:40-17:00	<u>Ana Zanjko</u>	Beneficial antiobesity effect of CoQ10 supplementation to high fat diet in the lean mouse polygenic model
17:00-17:30		Coffee break
17:30-18:00	<u>J.C.R. Aguilera</u>	Importance of coenzyme Q determination to evaluate food supplementation, bioavailability and metabolic effectiveness.
18:00-18:20	<u>Maja Milivojevic Fir,</u>	Studies of CoQ10 and cyclodextrin complexes: solubility thermo- and photo-stability
18:20-18:40	<u>Igor Pravst</u>	Coenzyme Q10 in foods and fortification options
18:40-19:00	<u>Monika Stražisar</u>	CoQ10 in dairy products
20:00		Dinner

Visit of prof. dr. G.P. Littarru in Laboratory L06 of the National Institute of Chemistry

Saturday 17. Oktober 2009

9:00-9:30	<u>Maja Fir</u>	Concentrations of CoQ10 in plasma and blood cells of children's after treatment with water soluble CoQ10 (lecture in Slovenian language)
9:30-10:00		Coffee break
10:00-11:30	<i>Viktorija Kerin, Ana Fakin, David Neubauer Mirko Prošek J.P. Littarru</i>	Round table discussion on the use of CoQ10 (lecture in Slovenian language)
11:30-11:50	<i>Perutnina Ptuj d.d. BF Ljubljana FKBV Maribor KI Ljubljana</i>	Presentation of the research project (lecture in Slovenian language) New originally developed fodder additive on the basis of water soluble CoQ10, its influence on the economic and health of broilers and hens during the industrial raise.
11:50-12:10	<u>Anton Zvokelj</u>	Industrial preparation of syrup fortified with CoQ10 and L-carnitin(lecture in Slovenian language)
9.00-11.00	<u>For international congres man</u>	Guided tour of Ljubljana
12:10-14:30		Lunch time
14:30-15:00	<u>Marko Volk</u>	Influence of added CoQ10 in feed mixture on the accumulation in the body tissue and on the production results of broilers
15:00-15:30	<u>Mirko Prosek</u>	Poultry products with increased content of CoQ10 prepared from chickens fed with supplemental CoQ10
15:30-16:00	<u>Petra Jazbec,</u>	Accumulation and distribution pattern of CoQ10 in chickens under prolonged feeding with an exogeneous source
16:00-16:30	<u>Luka Milivojevic</u>	HPLC-MS determination of CoQ10 in different meat and liver pates
16:00		Closure of the congress

Dr. Maja Fir Milivojevič presenting an inovative water-soluble CoQ10 form

Sunday 18. Oktober 2009

Trip to visit Maribor Meranovo and Faculty of Agriculture and Life Sciences

Farm Meranovo

Certainly one of the greatests
commercials for food fortify with water-
soluble CoQ10
CoQ10
Beograd 2008
