Prof. dr. Toshihide Kobayashi

Toshihide Kobayashi obtained his Ph.D. in University of Tokyo, Japan in 1983. He became research associate of Tokyo University, Japan in 1983 and associate professor of Tohoku University, Japan in 1992. Meantime, he had postdoctoral training in United States (Richard Pagano) and Europe (Kai Simons, Jean Gruenberg). In 1999, he became a team leader of RIKEN Frontier Research System, Japan, leading the sphingolipid functions laboratory. In 2001, he became a research director of INSERM, France. In 2003, he became a chief scientist of RIKEN Lipid Biology Laboratory. In 2016, he moved to Strasbourg, UMR 7021, CNRS/Strasbourg University, France. He is studying structure and function of lipid domains through biophysical and cell biological approach.
