Paul Williams is Professor of Molecular Microbiology and a Welcome Trust Senior Investigator in the Centre for Biomolecular Sciences, School of Life Sciences, University of Nottingham U.K. He graduated in Pharmacy prior to a Ph.D in Microbiology. From 1996-2008 he was Director, Institute of Infection & Immunity and Head, School of Molecular Medical Sciences (2008-2013).

His research interests focus on bacterial cell-cell communication (quorum sensing), novel antibacterial agents and biofilm resistant polymers. He has published over 350 research articles and patents (h index over 100) and he is a member of the diverse journal editorial/advisory boards.

He has served on the Biotechnology and Biological Sciences Research Council (Plants and Microbes Committee), the Medical Research Council (MRC) Infection & Immunology Board, the Infection Group of the Microbiology Society (UK) and the EU Joint Programming Initiative on Antimicrobial Resistance. He is an elected member of the European Academy of Microbiology.
