Prof. Dr. Dmitry Murzin

Dmitry Yu. Murzin studied chemical engineering and chemistry at Mendeleev University of Chemical Technology in Moscow graduating with honors in 1986. He defended his PhD in 1989 (supervisor M.I. Temkin) and Dr.Sc. in 1999 both at Karpov Physico-Chemical Institute in Moscow. After visits to University of Strasbourg, Åbo Akademi and Technical University of Darmstadt he joined BASF in 1995. In 2000 he returned to Åbo Akademi as a Chair of Chemical Technology.

The main interests are in heterogeneous catalysis, catalytic kinetics and chemical technology. He has published >800 peer reviewed original articles, and authored several textbooks.

He was elected to Academia Europaea and Finnish Academy of Science and Letters and holds honorary professorships from St. Petersburg State Technological Institute, Russia and Tianjin University, China. In 2016 Prof. Murzin became Knight, First Class, Order of the White Rose of Finland.
