MINI CURRICULUM VITAE

Prof. Paola Dugo

Dr. Paola Dugo is a full Professor of Food Chemistry at the University of Messina (Italy).

Her research focuses on innovative chromatographic techniques and multidimensional techniques (heart-cutting and comprehensive) in combination with mass spectrometry for the study of complex natural matrices and food products.

Prof. Dugo is the author of more than 250 scientific papers.

In 2016, she received the "HTC-14 award" for the most innovative contribution in the field of hyphenated techniques in chromatography and separation technology and in July 2017 she was awarded with the "Giovanni Dugo" Medal for the outstanding work in the field of Separation Sciences applied to Food Chemistry.

Prof. Dugo has been coordinator of the Group of Food Chemistry of the Italian Chemical Society (2019-2021). She is editor of Journal of Chromatography A (Elsevier).
